STORM AND FIRE DEVASTATE NOME

Alaskan City Is Almost Completely in Ruins.
LOSS MAY REACH \$1,500,000

Two Miles of Territory Is Laid Waste by Storm From Bering Sea and Fire Completes Work of Destruction—Winter Is at Hand and Much Suffering Seems Sure to Follow.

Nome, Alaska, Oct. 7.—Fire has broken out in the storm-stricken city of Nome. The flames have attacked the Pacific Cold Storage plant, where is stored the chief supply of meat for the winter. The fire apparatus was destroyed by the gale.
Front street is a seething mass of wreckage into which seas are breaking, while hundreds of homeless persons are struggling to save necessities of life.

Nome, Alaska, Oct. 7.—Nome has been almost destroyed by a storm. All the south side of Front street is gone. The sand pit is gone. Two miles of territory to the sea was devastated. No lives were lost.

The storm that beat in from Bering sea was the worst ever known here.

Men and women worked in the icy water to save their household effects.

The electric light plant was wrecked and telephone service cut off. The loss is estimated at \$1,500,000.

There will be much suffering and outside help will be required. Winter is at hand and it will be impossible to get in supplies needed.

The steamships Victoria and Corwin, which were lying in the roadstead, ran to the open sea and escaped damage.

All the small boats on the beach were destroyed.

Five hundred houses have been demolished and more are falling.

Nome, the famous gold camp on Bering sea, the most northerly city in the world, was built on a sandy sea beach. In front of the town there is an anchorage for ships, but steamers do not make a landing.

Cargoes and passengers are landed at an aerial tramway station in deep water.

The principal part of the town, which a dozen years ago had a population of 20,000, is on the east side of Snake river, with a long finger extending to the west along a narrow sand pit. This sand pit was rich in gold dust and the early settlers built their cabins there.

DENOUNCE CURRENCY BILL

Country Bankers Oppose Federal Reserve System.

Boston, Oct. 7.—Opposition to certain features of the Glass bill, which provides for a reform in the national currency and banking system, was voiced at a special conference of more than seven hundred country bankers attending the thirty-ninth annual convention of the American Bankers' association. That a new banking system is needed was admitted and the administration was commended for trying to pass one.

In resolutions adopted almost unanimously these bankers, who claim to represent about 75 per cent of all the banks in the United States, declared that unless the Glass bill, or federal reserve act, is amended along lines proposed by them, "very few country banks, either state or national, can afford to become members of the new federal system." This means, the declarations assert, "that the great majority of country national banks must surrender their charters or retire from business."

JAIL INHUMAN, SAYS JUDGE

Gives Man Ten Years in Prison for Stealing a Coat.

Des Moines, Oct. 7.—Judge McHenry of the criminal division of the district court sentenced Glen McGill, confessed thief, to the Anamosa reformatory because he said "to send a man to the county jail for a year is too cruel for any use."

McGill had pleaded guilty to stealing a coat.

"Ordinarily I would punish you by imposing a sentence of twelve months in the county jail, but under present conditions that would be too inhuman for me to do," said Judge McHenry. "I will send you to the reformatory for ten years, as the law does not permit me to give you a shorter prison sentence. But at the end of the first year I will petition the board of pardons to release you."

Alleged Slayer Kills Himself.

Green Bay, Wis., Oct. 7.—Eric Neugebauer, a farmer held on a charge of murder in the county jail at Kewaunee, committed suicide by hanging himself in his cell. Neugebauer murdered his brother at Luxemburg last fall. It was charged, following a quarrel over the building of a fence. The trial was to have opened next month at Kewaunee.

POLICE DECLARE STORIES FALSE

Chicago Officials Doubt Spencer's Murder Yarns.

CALL THEM OPIUM DREAMS

Out of Nineteen Alleged Killings Which Prisoner Claims to Be Guilty of Investigation Only Connects Him With Two—Authorities Assert They Have Complete Proof of Killing Woman.

Chicago, Oct. 7.—Of the nineteen murders Henry Spencer, slayer of Mrs. Mildred Allison-Rexroat, swore he had committed, the police, after investigating his alleged crimes in various cities, were able to fix upon him only one murder or possibly two. Captain Halpin, chief of the detective bureau, announced his conviction that Spencer, in giving his long, circumstantial confession of fiendish crime, was a consummate liar.

Four of the murders he says he committed were perpetrated while Spencer was in the Illinois state penitentiary at Joliet.

Of twelve alleged murders the police in this and other cities have no record.

In one case described by Spencer police records show that a body was recovered, but the detectives have established no connection between Spencer and the crime.

"Except for possibly two murders Spencer's weird story of killing people by hammering in their skulls and sinking bodies in lakes seems pure fabrication," said Captain Halpin.

Drugs Stimulate Imagination.

"His imagination, stimulated by drugs, poured out one of the most fantastic tales of murder that has ever come from a man whose mind is given to dreams of crime."

Captain Halpin declared that he has complete proof that Spencer murdered Mrs. Rexroat and is almost equally confident that he murdered Mrs. Anna Bell Wright. Mrs. Wright's house was robbed Dec. 4, 1912, and she was beaten so severely that she died July 13, 1913.

The body of Ida Oliver, recovered from the drainage canal May 29, 1912, may correspond to the foreign woman whom Spencer said he lured along the canal and killed after robbing her.

Spencer was in the penitentiary when Policemen Pennelle and Devine were killed, Aug. 11, 1902. He also was in prison in 1908 when Fannie Thompson was killed and when Emmett McChesny was killed in September, 1911.

Denials were received from police in other cities mentioned by Spencer that many of the boasted crimes were committed.

Officials of Zion City have no record of the man said to have been shot and thrown into the lake.

Most Stories Groundless.

The chief of police at Walkerville, Ont., wired that there had not been a murder there in twenty years.

Information from Goshen, N. Y., was that there was no record of a murder near Fort Montgomery, where Spencer said he had killed his first wife, Nellie.

Delavan and Fox Lake, Wis., report that no bodies were recovered of the three women and a man Spencer said he killed and threw into the lake at the two resorts. The St. Joseph, Mich., authorities could find no record of the murder of Mrs. Connors, reported in the confession.

No records could be found here of the old man, alleged to have been killed in Jackson park last spring, or of the woman he said he killed at Fulton and Halstead streets eight months ago or of a saloon keeper on the West Side.

Complete identification of Spencer as the murderer of Mrs. Rexroat came from several different sources, while at least two sections of his confession, referring to the holdups and robberies, were confirmed by visitors to the detective headquarters.

OPPOSE INCREASING WAGES

Eastern Lines Presenting Case to Arbitration Board.

New York, Oct. 7.—It will cost the Eastern railways nearly \$18,000,000 a year more to operate if they are compelled to grant the wage demands of their 80,000 trainmen and conductors, it was testified on behalf of the roads before the federal arbitration board.

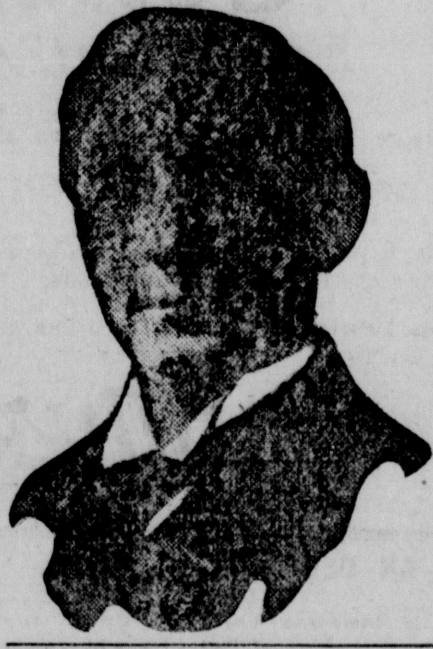

The wages asked for represent an increase of 21 per cent over the total wages now paid, according to John G. Walber, a vice president's assistant of the Baltimore and Ohio.

Auto Crash Is Fatal.

Racine, Wis., Oct. 7.—Henry Berchmeyer was killed and five companions injured when the steering gear of their automobile broke and was ditched near here.

TREASURER BURKE.

Is Forced to Keep Soiled Paper Money in Circulation.

CIRCULATING SOILED BILLS

Treasury Short of Sheets With Which to Print New Money.

Washington, Oct. 7.—For the first time in many years the United States treasury is circulating dirty and worn currency. The treasury's supply of paper for the printing of money is deficient by 60,000,000 sheets, or enough to make 240,000,000 notes, with a probable value in excess of \$1,000,000.

Because of this scarcity of new paper Treasurer Burke gave orders that no paper money, however dirty, should be destroyed.

This presents a curious situation, as there is a great demand for paper money during the crop moving period.

CUMMINS OUTLINES PLANS OF REFORM

Opposes National Committee Deciding Seat Contests.

Washington, Oct. 7.—Senator Cummins outlined in part the reform plans of the so-called "conciliation committee" of Republicans and Progressives, which hopes to bring about the holding of a national convention early in 1914.

The change in the representation of Southern states in the national convention is a secondary matter in the program of the committee.

With the added support of many Republican leaders who did not participate in the "get together" conference in Chicago last spring they will insist that the control of the Republican national committee over seating of delegates in a national convention be abolished.

"We shall insist that present rules shall be so modified and constructed," said Senator Cummins, "that the Republican national committee will no longer have the power to make up a temporary roll of delegates or to pass on the credentials of state delegates before they are seated in the convention."

Senator Cummins would have state committees or a special board pass on all contests over convention delegations.

It is proposed to bring all possible pressure to bear on members of the national committee, before the date set for the meeting in Washington, to induce them to agree to the holding of a national convention not later than next February.

MEXICAN CABINET CHANGES

Ministers Shifted From One Department to Another.

Mexico City, Oct. 7.—Another general shakeup in the Huerta cabinet has resulted in a complete change of the ministry with the exception of the war portfolio.

Most of the ministers were shifted from one department to another, but in two instances subsecretaries were promoted. The cabinet as it is now constituted follows:

Minister of foreign relations, Querido Mocho, recently appointed subsecretary in that department.

Minister of interior, Manuel Garza Aldape, recently foreign minister and later minister of public instruction.

Minister of finance, Adolfo de la Loma, formerly minister of justice.

Minister of public instruction, Garcia Naranjo, formerly subsecretary of that department.

Minister of communications and public works, Jose Lozano, formerly minister of communications.

Minister of justice, Enrique Gerosetti, formerly minister of finance.

Minister of war, General Aureliano Blanquet, retains portfolio.

KAISER GETS HALF.

Berlin, Oct. 7.—Emperor William agreed to a compromise in connection with an estate of \$800,000 left to him by Herman Knorr, a patriotic but eccentric wool dealer of Kauschwitz. He has consented to take one-half and allow the widow to keep the remainder.

WILSON HOPEFUL FOR MONEY BILL

Realizes That Success Is Some Distance Away.

SENATE WANTS TO DELAY IT

Members Desire Recess Between Adjournment of Special Session and Convening of Regular Session on Dec. 1—Fear They Will Lose Mileage Appropriations.

By ARTHUR W. DUNN.

Washington, Oct. 7.—[Special.]—Smiling serenely, optimistic to a most surprising degree, President Wilson is confident that a currency bill will pass before the snows of winter whiten the ground. That he sets the date some distance away shows that he has learned a great deal about the slow methods of congress when dealing with important legislation. But that he adheres to the idea of ultimate success is quite a surprise in view of the gloomy prospects.

It has become apparent that a majority in the senate does not want to pass a currency bill. Particularly is it true that the majority does not want to pass the bill at this session, and, what is more, there is a possibility that this majority will be able to stave off action until the regular session in December. Yet President Wilson continues to express confidence.

Want That Mileage.

The regular session begins at 12 o'clock Dec. 1. If there is no adjournment the special session will end at the same time. And what is troubling a lot of members is that in case of no adjournment there will be no mileage for the extra session. That was tried once. Roosevelt called an extra session a month before the regular session began. The members did not like it. They did not do anything. There was an effort to get an adjournment, but the two houses became snarled over who should try to adjourn, and the result was that the special session ran smack up against the regular session.

In an appropriation bill an effort was made to get mileage for that special session, but it was more than the members dared. There was a lot of fine hair splitting about an "interval" between 12 o'clock when the special session ended and 12 o'clock when the regular session began, but it failed to get the mileage. Most of the members want enough of an adjournment before Dec. 1 this year to insure their mileage for this long special session.

No Politics in "Pork."

Chairman Clark of the public buildings committee created some amusement in the house one day when he earnestly assured all members that neither under Bartholdt, a Republican; Shepard, a Democrat, and himself, another Democrat, was there a particle of politics in the public buildings committee. "Of course not," was the comment of one man. "There is no politics when the 'pork' is passed around."

The "Awful" Caucus. Republicans and Progressives are still hammering away at caucus methods. They are trying to get the Democrats to convict themselves and condemn the caucus, but without success, although a great many progressive Democrats have declared for the "open" caucuses in the future, and it would not be surprising to see such meetings so held in the near future.

Congressman Payne was nagging Chairman Clayton of the judiciary committee about a bill one day and wanted to know whether it had been authorized by the caucus.

"At a meeting of distinguished, influential and patriotic gentlemen of the house recently held in this city this bill was considered a good measure," replied Clayton, which meant that it had the approval of the Democratic caucus.

Wouldn't Have Had Time.

"If Theodore Roosevelt had not used as president Senator Lodge would not have taken ill," commented a man who knew the relations between the men. "He wouldn't have had time. Lodge wanted to keep on his feet, and the only way he could do it was to put in considerable time with him when the president was in recreation. Lodge didn't play tennis, so he had to take his business trips over hill and dale and never get on stream. Lodge simply had to keep in trim to keep with gunshot of his friend in the White House. He fell into sedentary habits after the administration changed."

Did Not Look the Part.

"It's pretty hard on us old fellows to keep us here all summer," remarked Senator Nelson early one morning as he was going to his committee work. But he did not look the part. Although past seventy, his face is free from wrinkles, and he is the picture of a healthy man twenty years younger.

Satisfies Hobson.

Congressman Hobson is apparently satisfied to have Clayton, Heflin and Underwood all in the fight against him. His friends say that Underwood will get the conservative vote in Alabama that might have gone to Clayton or Heflin, while Hobson will still hold the large progressive element.

Emery.

The world's supply of emery comes from Greek islands and from Asia Minor, near Smyrna.

SENATOR NEWLANDS.

Confers With President on New Anti-Trust Law.

TAKES UP ANTI-TRUST WORK

President and Senator Newlands Confer on Program.

Washington, Oct. 7.—A start was made by President Wilson on his anti-trust program for the December session of congress.

He had a long preliminary conference with Senator Newlands of Nevada, chairman of the interstate commerce committee which handles trust legislation in the senate.

Senator Newlands said he expected the president to transmit some recommendations to his committee early in the December session.

These probably will materialize after the president consults Attorney General McKeeney and some prominent lawyers outside of the official circle who have been studying the problem for years.

The discussion with Chairman Newlands was of a general character, bringing forward no particular scheme of legislation.

PROBABLY SLAIN IN FIGHT OVER SPOILS

Dead Man May Be One of Soa Station Robbers.

Benidjil, Minn., Oct. 7.—The body of a man believed to be one of the three robbers who held up the Soo ticket agent and the baggage man and escaped with \$7,500 last Tuesday at Thief River Falls lies in the coroner's room here. There is a bullet hole in the forehead and Sheriff Johnson believes the man was murdered by his pals as the result of a quarrel over the spoils.

The body was found between Pinewood and Scribner on the Soo line, sixty-eight miles southeast of Thief River Falls and twelve miles from Benidjil.

A complete robber's kit, consisting of fourteen keys, a file, a leather pouch containing twenty-five .44-caliber revolver cartridges, was found with the body.

The dead man answered the description as sent out from Thief River Falls of one of three men who robbed the station there. He was five feet nine inches tall, weighing 160 pounds, had brown eyes and wore a dark gray coat. He was about fifty years old.

PHILADELPHIA ITEM QUITS

Financial Difficulties Cause Suspension of Paper.

Philadelphia, Oct. 7.—The Item, one of the oldest afternoon and Sunday papers published in this city, has suspended publication. For some time, it is alleged, the publication has been in financial difficulties and at a recent meeting of the creditors of the estate of Thomas Fitz Gerald, the former publisher, it was announced that no further aid would be given the paper. Harrington Fitz Gerald, the executor, then stated that he would be unable to continue publishing the Item and that the estate would be thrown into litigation.

ACCUSED OF WHITE SLAVERY

Federal Grand Jury Indicts Rich St. Paul Lumberman.

Chicago, Oct. 7.—William Rufus Edwards, wealthy lumberman of St. Paul, was indicted by the federal grand jury, charged with violation of the Mann white slave act. Miss Ada M. Cox, a stenographer, was the complaining witness.

Miss Cox testified that Edwards caused her to take a trip from Chicago to St. Paul, Oct. 7, 1910. Upon her arrival in St. Paul, she alleged, Edwards took her to a number of cafes, where, against her wishes, she drank liquor and became intoxicated. When she woke up the following morning, she said, she found herself in a room with Edwards at Minneapolis.

DEFENSE SCORES IN SULZER CASE

MORE RELIGION IN POLITICS

Plea of Vice President Marshall in Addressing Presbyterians.

Philadelphia, Oct. 7.—Vice President Marshall, in an address before the Elders' association of the presbytery of Philadelphia North, urged that more of a spirit of religion enter into politics.

"More men," he said, "are needed to do things because they are right rather than because they are expedient."

"Please God, we will never have a state religion in America, but also, please God, we will never have an American people that is not religious," declared the speaker.

KEMP GIVEN HARD LABOR

Poet Sentenced to Twenty-one Days for Stowing Himself Away.

Southampton, Eng., Oct. 7.—A sentence of twenty-one days at hard labor was pronounced on Harry Kemp, the American verse writer, who was charged with stowing himself away on board the steamship Oceanic on her last voyage from New York.

A magistrate sent a recommendation to the home office that Kemp should be deported after he had served his term of imprisonment.

HEARINGS UNTIL OCT. 25

Senate Committee Will Then Consider Currency Bill.

Washington, Oct. 7.—President Wilson met with a reverse in the senate banking and currency committee. A majority of the committee ignored the president's plea for quick action on this important measure and voted to continue the hearings until Oct. 25, when the committee will take the bill under consideration. In accordance with the earnest wishes of the president an effort was made by Owens, chairman of the committee, to end the hearing Oct. 18, but this motion was voted down, 6 to 4.

Joint Freight Rates Ordered Cut.

Pierre, S. D., Oct. 7.—The state railway commission has issued a general order for a 20 per cent reduction in joint freight rates on different lines operating in this state. Heretofore the roads have charged full local rates on both roads where a freight shipment has been carried on two different lines. The new rate applies to all shipments either in car lots or smaller amounts. Where the different roads have directly connecting lines no switching charges are to be allowed on shipments.

Two Are Killed in Wreck.

St. Louis, Oct. 7.—Baltimore and Ohio westbound passenger train No. 3, New York to St. Louis, ran into the rear end of a freight train which was taking a siding at Summerfield, Ill., twenty-five miles east of here. The engine turned over and the engineer, named Alberty, who lived in Washington, Ind., and a tramp were killed.

Court Orders Some New Evidence Stricken Out.

EFFORTS TO PREVENT TRIAL

Prosecution Secures Permission to Reopen Its Case and Allan A. Ryan Testifies Governor Sought to Influence Republican Legislators to Stop Impeachment Proceedings.

Albany, N. Y., Oct. 7.—Governor William Sulzer attempted to obtain the influence of United States Senator Elihu Root and of William Barnes, chairman of the Republican state committee, to prevent the trial of his impeachment, according to testimony adduced at the trial, although subsequently stricken out by vote of the court.

Allan A. Ryan, son of Thomas Fortune Ryan, a New York financier, gave the testimony. It was also brought out through the testimony of Ignatius V. McGlone, secretary of the elder Ryan, that Governor Sulzer was the recipient of a \$10,000 cash campaign contribution from the Ryans which was not reported in the governor's sworn campaign statement.

"Tell your father I am the same old Bill," young Mr. Ryan said the governor said to him over the telephone, in asking for the contribution.

Mr. Ryan was called to the stand after the attorneys for the impeachment managers had obtained permission to reopen their case, which they announced as complete when court adjourned last Thursday.

Wanted Republican Support.

The witness said that just a week before the trial of impeachment began he had seen Governor Sulzer in the latter's office in New York. "He asked me," testified the financier's son, "to go to Washington and see Senator Root and request him to see Mr. Barnes, get him to endeavor to have the Republican members of this body to vote that this court had no right to try him and impeach him."

The testimony preceded the opening of the case for the defense by Harvey D. Hinman, who compared Governor Sulzer to the Apostle Paul, whose former friends, the attorney said, "did not attempt to impeach him or his epistles because of what he had done while acting with them and while one of them."

The question was, he added, whether Governor Sulzer was impeached for corrupt conduct in office or "because of what he has refused to do since he took office."

In answer to objections to Ryan's testimony Judge Cullen ordered it stricken out. Senator Slon Brown demanded a vote and Judge Cullen was sustained, 32 to 18.

GERMAN VIEW OF LIBERTY

Orator Opposes Prohibition and Restricted Immigration.

St. Louis, Oct. 7.—The influence of German thought on American civilization was the dominant theme of the speakers who addressed the banquet of the National German-American alliance.

Among those who spoke were Dr. C. J. Hexamer, president of the alliance; Alfred Gesseler, German consul at Chicago, an honorary delegate to the convention, as the special representative of Emperor William; Congressman Richard Bartholdt of St. Louis; Ben Blewett, superintendent of the St. Louis schools, and Frederick W. Lehmann of St. Louis, former solicitor general of the United States.

Congressman Bartholdt gave what he declared to be the typical German-American stand on the temperance and immigration questions.

JAIL INHUMAN, SAYS JUDGE

Gives Man Ten Years in Prison for Stealing a Coat.

Des Moines, Oct. 7.—Judge McHenry of the criminal division of the district court sentenced Glen McGill, confessed thief, to the Anamosa reformatory because he said "to send a man to the county jail for a year is too cruel for any use."

McGill had pleaded guilty to stealing a coat.

"Ordinarily I would punish you by imposing a sentence of twelve months in the county jail, but under present conditions that would be too inhuman for me to do," said Judge McHenry. "I will send you to the reformatory for ten years, as the law does not permit me to give you a shorter prison sentence. The chief of police at Walkerville, Ont., wired that there had not been a murder there in twenty years.

Information from Goshen, N. Y., was that there was no record of a murder near Fort Montgomery, where Spencer said he had killed his first wife, Nellie.

Delavan and Fox Lake, Wis., report that no bodies were recovered of the three women and a man Spencer said he killed and threw into the lake at the two resorts. The St. Joseph, Mich., authorities could find no record of the murder of Mrs. Connors, reported in the confession.

No records could be found here of the old man, alleged to have been killed in Jackson park last spring, or of the woman he said he killed at Fulton and Halstead streets eight months ago or of a saloon keeper on the West Side.

Complete identification of Spencer as the murderer of Mrs. Rexroat came from several different sources, while at least two sections of his confession, referring to the holdups and robberies, were confirmed by visitors to the detective headquarters.

OPPOSE INCREASING WAGES

Eastern Lines Presenting Case to Arbitration Board.

New York, Oct. 7.—It will cost the Eastern railways nearly \$18,000,000 a year more to operate if they are compelled to grant the wage demands of their 80,000 trainmen and conductors, it was testified on behalf of the roads before the federal arbitration board.

The wages asked for represent an increase of 21 per cent over the total wages now paid, according to John G. Walber, a vice president's assistant of the Baltimore and Ohio.

Auto Crash Is Fatal.

Racine, Wis., Oct. 7.—Henry Berchmeyer was killed and five companions injured when the steering gear of their automobile broke and was ditched near here.

TREASURER BURKE.
Is Forced to Keep Soiled Paper Money in Circulation.

CIRCULATING SOILED BILLS

Treasury Short of Sheets With Which to Print New Money.

Washington, Oct. 7.—For the first time in many years the United States treasury is circulating dirty and time worn currency. The treasury's supply of paper for the printing of money is deficient by 60,000,000 sheets, or enough to make 240,000 notes, with a probable value in excess of \$1,000,000.

Because of this scarcity of new paper Treasurer Burke gave orders that no paper money, however dirty, should be destroyed.

This presents a curious situation, as there is a great demand for paper money during the crop moving period.

CUMMINS OUTLINES PLANS OF REFORM

Opposes National Committee Deciding Seat Contests.

Washington, Oct. 7.—Senator Cummins outlined in part the reform plans of the so-called "conciliation committee" of Republicans and Progressives, which hopes to bring about the holding of a national convention early in 1914.

The change in the representation of Southern states in the national convention is a secondary matter in the program of the committee.

With the added support of many Republican leaders who did not participate in the "get together" conference in Chicago last spring they will insist that the control of the Republican national committee over seating of delegates in a national convention be abolished.

"We shall insist that present rules shall be so modified and constructed," said Senator Cummins, "that the Republican national committee will no longer have the power to make up a temporary roll of delegates or to pass on the credentials of state delegates before they are seated in the convention."

Senator Cummins would have state committees or a special board pass on all contests over convention delegations.

It is proposed to bring all possible pressure to bear on members of the national committee, before the date set for the meeting in Washington, to induce them to agree to the holding of a national convention not later than next February.

MEXICAN CABINET CHANGES

Ministers Shifted From One Department to Another.

Mexico City, Oct. 7.—Another general shakeup in the Huerta cabinet has resulted in a complete change of the ministry with the exception of the war portfolio.

Most of the ministers were shifted from one department to another, but in two instances subsecretaries were promoted. The cabinet as it is now constituted follows:

Minister of foreign relations, Querido Moreno, recently appointed subsecretary in that department.

Minister of interior, Manuel Garza Aldape, recently foreign minister and later minister of public instruction.

Minister of finance, Adolfo de la Loma, formerly minister of justice.

Minister of public instruction, Garcia Naranjo, formerly subsecretary of that department.

Minister of communications and public works, Jose Lozano, formerly minister of communications.

Minister of justice, Enrique Gerosetti, formerly minister of finance.

Minister of war, General Aureliano Blanquet, retains portfolio.

WILSON HOPEFUL FOR MONEY BILL

Realizes That Success Is Some Distance Away.

SENATE WANTS TO DELAY IT

Members Desire Recess Between Adjournment of Special Session and Convening of Regular Session on Dec. 1.—Fear They Will Lose Mileage Appropriations.

By ARTHUR W. DUNN.

Washington, Oct. 7.—[Special.]—Smiling serenely, optimistic to a most surprising degree, President Wilson is confident that a currency bill will pass before the snows of winter whiten the ground. That he sets the date some distance away shows that he has learned a great deal about the slow methods of congress when dealing with important legislation. But that he adheres to the idea of ultimate success is quite a surprise in view of the gloomy prospects.

It has become apparent that a majority in the senate does not want to pass a currency bill. Particularly is it true that the majority does not want to pass the bill at this session, and what is more, there is a possibility that this majority will be able to stave off action until the regular session in December. Yet President Wilson continues to express confidence.

Want That Mileage.

The regular session begins at 12 o'clock Dec. 1. If there is no adjournment the special session will end at the same time. And what is troubling a lot of members is that in case of no adjournment there will be no mileage for the extra session. That was tried once. Roosevelt called an extra session a month before the regular session began. The members did not like it. They did not do anything. There was an effort to get an adjournment, but the two houses became snarled over who should try to adjourn, and the result was that the special session ran smack up against the regular session.

In an appropriation bill an effort was made to get mileage for that special session, but it was more than the members dared. There was a lot of fine hair splitting about an "interval" between 12 o'clock when the special session ended and 12 o'clock when the regular session began, but it failed to get the mileage. Most of the members want enough of an adjournment before Dec. 1 this year to insure their mileage for this long special session.

No Politics in "Pork."

Chairman Clark of the public buildings committee created some amusement in the house one day when he earnestly assured all members that neither under Bartholdt, a Republican; Shepard, a Democrat; and himself, another Democrat, was there a particle of politics in the public buildings committee. "Of course not," was the comment of one man. "There is no politics when the 'pork' is passed around."

The "Awful" Caucus.

Republicans and Progressives are still hammering away at caucus methods. They are trying to get the Democrats to convict themselves and condemn the caucus, but without success, although a great many progressive Democrats have declared for the "open" caucuses in the future, and it would not be surprising to see such meetings so held in the near future.

Congressman Payne was nagging Chairman Clayton of the judiciary committee about a bill one day and wanted to know whether it had been authorized by the caucus.

"At a meeting of distinguished, influential and patriotic gentlemen of the house recently held in this city this bill was considered a good measure," replied Clayton, which meant that it had the approval of the Democratic caucus.

Wouldn't Have Had Time.

"If Theodore Roosevelt had consulted as president Senator Lodge would not have been taken ill," commented a man who knew the relations between the men. "He wouldn't have had time. Lodge wanted to keep on with Roosevelt, and the only way he could do it was to put in considerable time with him when the president took to recreation. Lodge didn't play tennis, so he had to take his business on horseback and on those marvelous trips over hill and dale and across bog and stream. Lodge simply had to keep him trim to keep within gunshot of his friend in the White House. He fell into sedentary habits after the administration changed."

Did Not Look the Part.

"It's pretty hard on us old fellows to keep us here all summer," remarked Senator Nelson early one morning as he was going to his committee work. But he did not look the part. Although past seventy, his face is free from wrinkles, and he is the picture of a healthy man twenty years younger.

Satisfies Hobson.

Congressman Hobson is apparently satisfied to have Clayton, Heflin and Underwood all in the fight against him. His friends say that Underwood will get the conservative vote in Alabama that might have gone to Clayton or Heflin, while Hobson will still hold the large progressive element.

Emery.

The world's supply of emery comes from Greek islands and from Asia Minor, near Smyrna.

SENATOR NEWLANDS.
Confers With President on New Anti-Trust Law.

TAKES UP ANTI-TRUST WORK

President and Senator Newlands Confer on Program.

Washington, Oct. 7.—A start was made by President Wilson on his anti-trust program for the December session of congress.

He had a long preliminary conference with Senator Newlands of Nevada, chairman of the interstate commerce committee which handles trust legislation in the senate.

Senator Newlands said he expected the president to transmit some recommendations to his committee early in the December session.

These probably will materialize after the president consults Attorney General McKeen and some prominent lawyers outside of the official circle who have been studying the problem for years.

The discussion with Chairman Newlands was of a general character, bringing forward no particular scheme of legislation.

PROBABLY SLAIN IN FIGHT OVER SPOILS

Dead Man May Be One of Soo Station Robbers.

Benidji, Minn., Oct. 7.—The body of a man believed to be one of the three robbers who held up the Soo ticket agent and the baggage man and escaped with \$7,500 last Tuesday at Thief River Falls lies in the corner's room here. There is a bullet hole in the forehead and Sheriff Johnson believes the man was murdered by his pals as the result of a quarrel over the spoils.

The body was found between Pine-wood and Scribner on the Soo line, sixty-eight miles southeast of Thief River Falls and twelve miles from Benidji.

A complete robber's kit, consisting of fourteen keys, a file, a leather pouch containing twenty-five 44-caliber revolver cartridges, was found with the body.

The dead man answered the description as sent out from Thief River Falls of one of three men who robbed the station there. He was five feet nine inches tall, weighing 150 pounds, had brown eyes and wore a dark gray coat. He was about fifty years old.

PHILADELPHIA ITEM QUITS

Financial Difficulties Cause Suspension of Paper.

Philadelphia, Oct. 7.—The Item, one of the oldest afternoon and Sunday papers published in this city, has suspended publication. For some time, it is alleged, the publication has been in financial difficulties and at a recent meeting of the creditors of the estate of Thomas Fitz Gerald, the former publisher, it was announced that no further aid would be given the paper. Harrington Fitz Gerald, the executor, then stated that he would be unable to continue publishing the Item and that the estate would be thrown into litigation.

ACCUSED OF WHITE SLAVERY

Federal Grand Jury Indicts Rich St. Paul Lumberman.

Chicago, Oct. 7.—William Rufus Edwards, wealthy lumberman of St. Paul, was indicted by the federal grand jury, charged with violation of the Mann white slave act. Miss Ada M. Cox, a stenographer, was the complaining witness.

Miss Cox testified that Edwards caused her to take a trip from Chicago to St. Paul, Oct. 7, 1910.

Upon her arrival in St. Paul, she alleges, Edwards took her to a number of cafes, where, against her wishes, she drank liquor and became intoxicated. When she woke up the following morning, she said, she found herself in a room with Edwards at Minneapolis.

DEFENSE SCORES IN SULZER CASE

MORE RELIGION IN POLITICS

Plea of Vice President Marshall in Addressing Presbyterians.

Philadelphia, Oct. 7.—Vice President Marshall, in an address before the Elders' association of the proslavery of Philadelphia North, urged that more of a spirit of religion enter into politics.

"More men," he said, "are needed to do things because they are right rather than because they are expedient."

"Please God, we will never have a state religion in America, but also, please God, we will never have an American people that is not religious," declared the speaker.

KEMP GIVEN HARD LABOR

Poet Sentenced to Twenty-one Days for Stowing Himself Away.

Southampton, Eng., Oct. 7.—A sentence of twenty-one days at hard labor was pronounced on Harry Kemp, the American verse writer, who was charged with stowing himself away on board the steamship Oceanic on her last voyage from New York.

A magistrate sent a recommendation to the home office that Kemp should be deported after he had served his term of imprisonment.

HEARINGS UNTIL OCT. 25

Senate Committee Will Then Consider Currency Bill.

Washington, Oct. 7.—President Wilson met with a reverse in the Senate banking and currency committee. A majority of the committee ignored the president's plea for quick action on this important measure and voted to continue the hearings until Oct. 25, when the committee will take the bill under consideration. In accordance with the earnest wishes of the president an effort was made by Owens, chairman of the committee, to end the hearing Oct. 18, but this motion was voted down, 6 to 4.

Joint Freight Rates Ordered Cut.

Pierre, S. D., Oct. 7.—The state railway commission has issued a general order for a 20 per cent reduction in joint freight rates on different lines operating in this state. Heretofore the roads have charged full local rates on both roads where a freight shipment has been carried on two different lines. The new rate applies to all shipments either in car lots or smaller amounts. Where the different roads have directly connecting lines no switching charges are to be allowed on shipments.

Two Are Killed in Wreck.

St. Louis, Oct. 7.—Baltimore and Ohio westbound passenger train No. 3, New York to St. Louis, ran into the rear end of a freight train which was taking a siding at Summerfield, Ill., twenty-five miles east of here. The engine turned over and the engineer, named Alberty, who lived in Washington, Ind., and a tramp were killed.

GERMAN VIEW OF LIBERTY

Orator Opposes Prohibition and Restricted Immigration.

St. Louis, Oct. 7.—The influence of German thought on American civilization was the dominant theme of the speakers who addressed the banquet of the National German-American alliance.

Among those who spoke were Dr. C. J. Hexamer, president of the alliance; Alfred Geissler, German consul at Chicago, an honorary delegate to the convention, as the special representative of Emperor William; Congressman Richard Bartholdt of St. Louis; Ben Blewett, superintendent of the St. Louis schools, and Frederick W. Lehmann of St. Louis, former solicitor general of the United States.

Congressman Bartholdt gave what he declared to be the typical German-American stand on the temperance and immigration questions.

"Prohibition is not liberty," he declared. "And we want to be free men whose conscience is a mightier dictator than the policeman's club."

"Restricted immigration is not liberty. And we want to deny to no man, not even the poorest, the opportunity by which we ourselves rose to success."

SEEK QUORUM FOR HOUSE

Leaders Alarmed Over Fate of Urgent Deficiency Bill.

Washington, Oct. 7.—Administration leaders in the house, anxious over the urgent deficiency bill, are sending out appeals to absent members to return to Washington.

The amendment in the senate abolishing the commerce court, but retaining the judges on the circuit bench, is expected to cause considerable discussion and Republicans are preparing again to attack the provision removing deputy United States marshals and deputy internal revenue collectors from the civil service.

Court Orders Some New Evidence Stricken Out.

EFFORTS TO PREVENT TRIAL

Prosecution Secures Permission to Reopen Its Case and Allan A. Ryan Testifies Governor Sought to Influence Republican Legislators to Stop Impeachment Proceedings.

Albany, N. Y., Oct. 7.—Governor William Sulzer attempted to obtain the influence of United States Senator Elihu Root and of William Barnes, chairman of the Republican state committee, to prevent the trial of his impeachment, according to testimony adduced at the trial, although subsequently stricken out by vote of the court.

Allan A. Ryan, son of Thomas Fortune Ryan, a New York financier, gave the testimony. It was also brought out through the testimony of Ignatius V. McGlone, secretary of the older Ryan, that Governor Sulzer was the recipient of a \$10,000 cash campaign contribution from the Ryans which was not reported in the governor's sworn campaign statement.

"Tell your father I am the same old Bill," young Mr. Ryan said the governor said to him over the telephone, in asking for the contribution.

Mr. Ryan was called to the stand after the attorneys for the impeachment managers had obtained permission to reopen their case, which they announced as complete when court adjourned last Thursday.

Wanted Republican Support.

The witness said that just a week before the trial of impeachment began he had seen Governor Sulzer in the latter's office in New York. "He asked me," testified the financier's son, "to go to Washington and see Senator Root and request him to see Mr. Barnes, get him to endeavor to have the Republican members of this body to vote that this court had no right to try him and impeach him."

The testimony preceded the opening of the case for the defense by Harvey D. Hinman, who compared Governor Sulzer to the Apostle Paul, whose former friends, the attorney said, "did not attempt to impeach him or his epistles because of what he had done while acting with them and while one of them."

The question was, he added, whether Governor Sulzer was impeached for corrupt conduct in office or "because of what he has refused to do since he took office."

In answer to objections to Ryan's testimony Judge Cullen ordered it stricken out. Senator Sloan Brown demanded a vote and Judge Cullen was sustained, 32 to 18.

FOURTEEN KILLED.

Dvinsk, Russia, Oct. 7.—Fourteen passengers were killed and twenty-eight injured when the express from Kiev to St. Petersburg collided with a stalled locomotive near the station here.

CONG. LINDBERGH HERE

Popular Representative of the Sixth District Motors to Brainerd Monday Afternoon

Congressman C. A. Lindbergh, the popular representative of the sixth district, motored from Little Falls to Brainerd Monday afternoon. His car was delayed, encountering heavy mud on the way. Mr. Lindbergh owns land and other interests at and near Little Falls and is also a heavy investor in lands on the Cuyuna iron range. He left yesterday for Crosby to look after some of his investments.

Mr. Lindbergh was particularly pleased over the prosperous conditions in Brainerd, and, for that matter, in the entire district. Crops have been good and there is employment for every one who wishes to work.

At Washington, D. C., Mr. Lindbergh met young John Mahlum, who is now attending Georgetown university and was pleased with the studious qualities manifested by Mr. Mahlum. The interest which the congressman takes in young men and the assistance he often gives them is one of the lovable traits in his character and endears him to many.

GIRLS! STOP WASHING THE HAIR WITH SOAP

Soap dries your scalp, causing dandruff, then hair falls out—Try this next time

After washing your hair with soap always apply a little Danderline to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderline Hair Cleanse." Just moisten a cloth with Danderline and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderline dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderline is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderline from any drug store or toilet counter and try it.—Adv.

Money Sticks to Them.

Miners' safety lamps are quite well known to the general public, but the English miners' safety purse is not quite so well known. Excepting, of course, among the miners themselves. As it is too risky for the miner to carry loose cash around during his working hours, he piles up his money in the shape of a cone. This he completely covers with ordinary candle wax until it looks like a ball. When this ball of money is placed in his waistcoat pocket the heat of the body melts the wax. This causes it to stick to the inside of the pocket, and no matter how much the waistcoat is thrown about, the money remains intact.—Pearson's.

AN OLD INDIAN LEGEND.

The incidents That Led Up to the Naming of Peughkeopsis.

During the days when the Indians still held sway on the banks of the Hudson there was a fierce battle between the Delaware and the Pequot tribes. The former won, and among their captives was a handsome young Pequot brave. He was offered his life if he would swear allegiance to the Delaware and be branded with their tribal mark—the turtle. He refused, and preparations were then made to kill him. As his enemies were on the point of doing this a young Indian girl broke into the circle and begged for his life. She had at one time been a Pequot, but had been captured by the Delaware and forced to join their tribe. Her appeals were so touching that the warriors were debating the matter when the party was attacked by still another enemy, the Huron Indians. In the excitement the girl cut her lover's bonds, but the two found themselves in the midst of a fierce battle and eventually became separated. The young warrior escaped, but the girl was captured by a Huron chief.

Determined to rescue her at any cost, the Pequot brave disguised himself as a medicine man and entered the camp of the Hurons. By some pretext he gained admission to the tent where the girl was kept prisoner, and late at night they managed to escape in the darkness. Their flight was soon discovered and pursuit began, but the young couple reached the river far enough in advance of their pursuers to embark in a canoe and push off from shore. They were still followed, but the warrior was young and strong and succeeded in getting his little craft safely into a cove at the junction of the great river and a little stream entering into it between two high, protecting banks, where they hid, and later found a friendly tribe.

Rejoicing that the place had been a "safe harbor" for the girl and her lover in time of peril, it was so designated in the Pequot tongue, the Indian equivalent being "Ape-keep-sinck." Today, after having filtered through the Dutch and English tongues, it is known as Peughkeopsis.—Ladies' Home Journal.

Exquisite Silk-like Effects in Fine Wash Fabrics

One of the most striking features in Dress Goods for the Fall and Winter season is the increasing popularity of fancy Cotton Fabrics.

Stripes, Checks, Jacquard designs and Brocaded effects so much sought after in the higher priced Wool, Silk and Silk and Wool materials are all beautifully brought out in Cotton, and Silk and Cotton Wash Fabrics—and it is these lines to which we wish to direct your attention tomorrow when we will feature

LaPote

Cotton Dress Goods
For Street, Afternoon and Evening Wear

Such beautiful styles as our Brocaded Poplins, Brocaded Bengaline, Mahabata Crepe, Brocaded Crepe de Chine, Charmeuse, Stripe Poplins, Corded Ratine and others, because of their soft colors and lustrous silk-like finish, are particularly popular for Afternoon and Evening Wear.

You will find these fabrics somewhat heavier than the Wash Goods you have heretofore been accustomed to buy. For this reason they are especially desirable for Fall and Winter Wear indoors.

For Style and all round satisfaction, it would be hard to find a line of Dress materials that would give a greater degree of SERVICE and we urge you to make it a point to be among the first to make selections.

Remember—Wash Fabrics will be featured tomorrow. Come early. PRICES from 25c to \$1.50 the Yard.

CONG. LINDBERGH HERE

Popular Representative of the Sixth
District Motors to Brainerd
Monday Afternoon

Congressman C. A. Lindbergh, the
popular representative of the sixth
district, motored from Little Falls to
Brainerd Monday afternoon. His car
was delayed, encountering heavy mud
on the way. Mr. Lindbergh owns
land and other interests at and near
Little Falls and is also a heavy in-
vestor in lands on the Cuyuna iron
range. He left yesterday for Crosby
to look after some of his invest-
ments.

Mr. Lindbergh was particularly
pleased over the prosperous condi-
tions in Brainerd, and, for that mat-
ter, in the entire district. Crops
have been good and there is employ-
ment for every one who wishes to
work.
At Washington, D. C., Mr. Lin-
dergh met young John Mahlum, who
is now attending Georgetown uni-
versity and was pleased with the
studious qualities manifested by Mr.
Mahlum. The interest which the con-
gressman takes in young men and
the assistance he often gives them is
one of the lovable traits in his charac-
ter and endears him to many.

GIRLS! STOP WASHING
THE HAIR WITH SOAP

Soap dries your scalp, causing dan-
druff, then hair falls out—Try
this next time

After washing your hair with soap
always apply a little Danderline to the
scalp to invigorate the hair and pre-
vent dryness. Better still, use soap
as sparingly as possible, and instead
have a "Danderline Hair Cleanse."
Just moisten a cloth with Danderline
and draw it carefully through your
hair, taking one strand at a time.
This will remove dust, dirt and ex-
cessive oil. In a few moments you
will be amazed, your hair will not
only be clean, but it will be wavy,
fluffy and abundant, and possess an
incomparable softness and lustre.

Besides cleansing and beautifying
the hair, one application of Danderline
dissolves every particle of dan-
druff; stimulates the scalp, stopping
itching and falling hair. Danderline
is to the hair what fresh showers of
rain and sunshine are to vegetation.
It goes right to the roots, invigorates
and strengthens them. Its exhilarat-
ing and life-producing properties
cause the hair to grow long, strong
and beautiful.

Men! Ladies! You can surely have
lots of charming hair. Get a 25
cent bottle of Knowlton's Danderline
from any drug store or toilet counter
and try it.—Advt.

Money Sticks to Them.

Miners' safety lamps are quite well
known to the general public, but the
English miners' safety purse is not
quite so well known. excepting, of
course, among the miners themselves.
As it is too risky for the miner to
carry loose cash around during his
working hours, he piles up his money
in the shape of a cone. This he com-
pletely covers with ordinary candle
wax until it looks like a ball. When
this ball of money is placed in his
waistcoat pocket the heat of the body
melts the wax. This causes it to stick
to the inside of the pocket, and no mat-
ter how much the waistcoat is thrown
about, the money remains intact.—

AN OLD INDIAN LEGEND.

The incidents That Led Up to the
Naming of Peughkeepsie.

During the days when the Indians
still held sway on the banks of the
Hudson there was a fierce battle be-
tween the Delaware and the Pequot
tribes. The former won, and among
their captives was a handsome young
Pequot brave. He was offered his life
if he would swear allegiance to the
Delawares and be branded with their
tribal mark—the turtle. He refused,
and preparations were then made to
kill him. As his enemies were on the
point of doing this a young Indian girl
broke into the circle and begged for
him. She had at one time been a
Pequot, but had been captured by the
Delawares and forced to join their
tribe. Her appeals were so touching
that the warriors were debating the
matter when the party was attacked
by still another enemy, the Huron In-
dians. In the excitement the girl cut
her lover's bonds, but the two found
themselves in the midst of a fierce bat-
tle and eventually became separated.
The young warrior escaped, but the
girl was captured by a Huron chief.

Determined to rescue her at any cost,
the Pequot brave disguised himself as
a medicine man and entered the camp
of the Hurons. By some pretext he
gained admission to the tent where the
girl was kept prisoner, and late at
night they managed to escape in the
darkness. Their flight was soon dis-
covered and pursuit began, but the
young couple reached the river far
enough in advance of their pursuers to
embark in a canoe and push off from
shore. They were still followed, but
the warrior was young and strong and
succeeded in getting his little craft
safely into a cove at the junction of
the great river and a little stream en-
tering into it between two high, pro-
tecting banks, where they hid, and
later found a friendly tribe.

Rejoicing that the place had been a
"safe harbor" for the girl and her lov-
er in time of peril, it was so designated
in the Pequot tongue, the Indian equi-
valent being "Ape-keep-snick." Today,
after having filtered through the Dutch
and English tongues, it is known as
Peughkeepsie.—Ladies' Home Journal

GAS FRANCHISES ARE WITHDRAWN

Council Monday Night Adopts Resolution Nullifying the Mann Telephone Franchise

LIQUOR LICENSE IS GRANTED

B. J. Broady Made Assistant City Attorney, Miss O. M. Hanayn Assistant City Clerk

All members of the council were present Monday evening except Aldermen Smith and Hess.

Both gas franchises before the council were withdrawn. A. G. Whitney, of St. Cloud, said the \$1.25 rate set by the council was too low, making such statement in a communication to the city clerk which was read to the council. Mr. Roderick then read the telegram which Mr. Whitney had sent from St. Cloud and that came right to the point, Mr. Whitney stating he had withdrawn from the council his application for a gas franchise.

J. P. Smith's gas ordinance, as it is popularly termed, had previously received a first reading. Aldermen Betzold and Haake asked to lay over consideration of the same. Mr. Smith said he wanted a vote taken to give it another reading. He wanted something definite. He claimed he had given Brainerd the best franchise any city of the state had been offered. Alderman Betzold said the rates were too high. Mr. Smith said the \$1.50 rate was an equitable one considering the advancing cost of supplies and labor. On motion of Aldermen Haake and Betzold the gas franchise was laid on the table. Mr. Smith then withdrew his franchise and asked for the return of his drawings, specifications and plans.

The telephone matter then had the right of way. Attorney S. F. Alderman, appearing for the Minnesota Telephone Co., said there was abundant proof that Horace F. Mann had complied with all the requirements of the telephone franchise granted him. Mr. Alderman maintained that those objecting to the Mann franchise should submit their data to the council.

Mr. Alderman, with the assent of the council, was told to show what Mr. Mann had done to comply with the franchise terms. It had narrowed down to a fight between the Northwestern and Minnesota Telephone companies, said Mr. Alderman. The Northwestern naturally wanted no new company here. "Certainly if they bring you a resolution nullifying the Mann franchise, these officials and their counsel here should have something to substantiate their claims. It is not right to put the Mann telephone company on proof."

He then read the affidavit of Horace F. Mann that shortly after the passage of Ordinance No. 208 he commenced the construction of his line and in the spring of 1907 completed it from Midland to a point in the city and on July 3, 1907 had connected with the Harrison school. From the poor farm on his wire, by agreement, had been strung on Northwestern poles. Up to 1911 the line remained on these poles and later was connected with the cables. It was then extended from the Harrison to the high school. At all this time it had been connected with the Northwestern exchange. The telephone system had been operated to the mutual advantage of the Mann and Northwestern subscribers. Later Mr. Mann transferred his interests to the Minnesota Telephone Co. and was now in a position to put in his independent board.

Neil Winsor's affidavit stated he was a lineman and had helped build the pole line into Brainerd.

Charles Miller's affidavit certified to his hauling the wire used in the Mann line.

Peter Stendahl's affidavit stated that Horace F. Mann and his crew, while building the line into Brainerd, had boarded at his place.

C. E. Avery's affidavit was to the effect that he had assisted in building the line.

"We have," said Mr. Alderman, "545 contracts asking for telephone service. Some had been canceled, but later these cancellations were destroyed when the people saw the workings of the telephone in the company's booth on display in the city." These people who had signed for telephone service, at a reduced rate, had as much right to be heard as the business men of the city. The shop men, men at the tie plant, laborers,

BAKER MAKES A HOME RUN

Forty Thousand Fans Witness the Contest—Marquard Hammered Badly

New York, Oct. 7.—Forty thousand fans witnessed the first game of the world's series and saw the Philadelphia Athletics trounce New York to the score of 6 to 4.

Bender, born in Brainerd, was the star of the Athletics, ably supported by young Schang at the receiving end.

The Athletics turned on their heavy artillery in the fourth inning, Baker hammering a home run over the fence.

Marquard was driven from the box and Tessreau was sent in.

New York came back strong in the fifth, scoring 3.

In the vain hope of winning in a last rally "Doc" Crandall, famous relief pitcher of the Giants was sent in, but the White Elephants copped the game 6 to 4.

workers, families and others, who would otherwise not be able to afford a telephone at present rates, these had a right to have their claims for a telephone line weighed by the members of the council.

Secretary Wilder, of the Minnesota Telephone Co., said that it was fair that if the council accepted the proof that Mr. Mann had established and maintained his line into Brainerd, that the council approve of their plans to build an exchange in the city. Practically all of the poles in Northeast Brainerd would be placed in the alleys.

F. E. Ebner, attorney for the Northwestern Telephone Co., said it was not a question between the Northwestern and the Tri-State people. He did not deny that the Northwestern did not want the new company in Brainerd. "We can't stop their coming in. It rests with this council if you want your streets encumbered with telephone poles. We will admit every fact they stated," said Mr. Ebner. He dwelt on the case of the Northwestern at Thief River Falls wherein it had been held that resolutions of a council were to be strictly construed and he maintained that Mann's building into Brainerd had not given the city the benefit of an opposition line or competing company. It had offered no independent booth or switchboard. They had absolutely failed to comply with the terms of their franchise. He admitted that if the Northwestern wished to roll logs in their way, it would do so at every turn. "The Mann company gave you no independent line," said Mr. Ebner in conclusion, "but connected with a competitor."

Mr. Wilder said Mr. Mann had performed a service to the people of Brainerd and the Mille Lacs lake district by connecting his Midland line with the Northwestern, doing a greater service than if he had put in one phone in Brainerd and waited until now, when he was in a position to put in an exchange.

Mr. Speechley said the Northwestern now had 908 telephones in Brainerd, after seven years in the present field.

Mr. Alderman thanked the Northwestern people for their frank admission regarding the logs they rolled in the way of their competitor.

"If the council thinks the Minnesota Telephone Co. has no right to a franchise, we can litigate this matter with the city," said Mr. Alderman. "Why should the city want to shoulder litigation that can be avoided. This new company offers to operate at a reduced rate and is obliged to do so to get business. Many working people will be able to get a phone which they are not now able to do under

BRAINERD NOW A BUSY CENTER

Ore Movement has Commenced, The Barrows Mine Having Shipped to Date 24 Cars

WHEAT AVERAGE DAILY 250 CARS

Heavy Coal Shipments Going West—Miscellaneous Freight Also Keeping Train Men Busy

Brainerd is now a busy shipping center. The ore movement, though small at present, has received its first start by the shipments from the Barrows mine of the Virginia Ore Mining Co. The first shipment last Thursday was 12 cars, followed during the week by two more of six cars each. Today 35 empties were sent down to be filled up. The mine is hoisting from its shaft about six cars a day.

The movement of wheat has been heavy, averaging until the recent wet spell, 250 cars a day. Coal is now moving westward in ever increasing quantities. The Hart convertible cars used for hauling gravel in the summer, are now transporting coal. General freight is keeping the yard and train men busy and the yards are scenes of activity on all sides.

GAS FRANCHISES ARE WITHDRAWN

Council Monday Night Adopts Resolution Nullifying the Mann Telephone Franchise

LIQUOR LICENSE IS GRANTED

B. J. Broady Made Assistant City Attorney, Miss O. M. Hansyn Assistant City Clerk

All members of the council were present Monday evening except Aldermen Smith and Hess.

Both gas franchises before the council were withdrawn. A. G. Whitney, of St. Cloud, said the \$1.25 rate set by the council was too low, making such statement in a communication to the city clerk which was read to the council. Mr. Roderick then read the telegram which Mr. Whitney had sent from St. Cloud and that came right to the point, Mr. Whitney stating he had withdrawn from the council his application for a gas franchise.

J. P. Smith's gas ordinance, as it is popularly termed, had previously received a first reading. Aldermen Betzold and Haake asked to lay over consideration of the same. Mr. Smith said he wanted a vote taken to give it another reading. He wanted something definite. He claimed he had given Brainerd the best franchise any city of the state had been offered. Alderman Betzold said the rates were too high. Mr. Smith said the \$1.50 rate was an equitable one considering the advancing cost of supplies and labor. On motion of Aldermen Haake and Betzold the gas franchise was laid on the table. Mr. Smith then withdrew his franchise and asked for the return of his drawings, specifications and plans.

The telephone matter then had the right of way. Attorney S. F. Alderman, appearing for the Minnesota Telephone Co., said there was abundant proof that Horace F. Mann had complied with all the requirements of the telephone franchise granted him. Mr. Alderman maintained that those objecting to the Mann franchise should submit their data to the council.

Mr. Alderman, with the assent of the council, was told to show what Mr. Mann had done to comply with the franchise terms. It had narrowed down to a fight between the Northwestern and Minnesota Telephone companies, said Mr. Alderman. The Northwestern naturally wanted no new company here. "Certainly if they bring you a resolution nullifying the Mann franchise, these officials and their counsel here should have something to substantiate their claims. It is not right to put the Mann telephone company on proof."

He then read the affidavit of Horace F. Mann that shortly after the passage of Ordinance No. 208 he commenced the construction of his line and in the spring of 1907 completed it from Midland to a point in the city and on July 3, 1907 had connected with the Harrison school. From the poor farm on his wire, by agreement, had been strung on Northwestern poles. Up to 1911 the line remained on these poles and later was connected with the cables. It was then extended from the Harrison to the high school. At all this time it had been connected with the Northwestern exchange. The telephone system had been operated to the mutual advantage of the Mann and Northwestern subscribers. Later Mr. Mann transferred his interests to the Minnesota Telephone Co. and was now in a position to put in his independent bond.

Neil Winsor's affidavit stated he was a lineman and had helped build the pole line into Brainerd.

Charles Miller's affidavit certified to his hauling the wire used in the Mann line.

Peter Stendahl's affidavit stated that Horace F. Mann and his crew, while building the line into Brainerd, had boarded at his place.

C. E. Avery's affidavit was to the effect that he had assisted in building the line.

"We have," said Mr. Alderman, "545 contracts asking for telephone service. Some had been canceled, but later these cancellations were destroyed when the people saw the workings of the telephone in the company's booth on display in the city." These people who had signed for telephone service, at a reduced rate, had as much right to be heard as the business men of the city. The shop men, men at the tie plant, laborers,

workers, families and others, who would otherwise not be able to afford a telephone at present rates, these had a right to have their claims for a telephone line weighed by the members of the council.

Secretary Wilder, of the Minnesota Telephone Co., said that it was fair that if the council accepted the proof that Mr. Mann had established and maintained his line into Brainerd, that the council approve of their plans to build an exchange in the city. He did not deny that the Northwestern did not want the new company in Brainerd. "We can't stop their coming in. It rests with this council if you want your streets encumbered with telephone poles. We will admit every fact they stated," said Mr. Ebner. He dwelt on the case of the Northwestern at Thief River Falls wherein it had been held that resolutions of a council were to be strictly construed and he maintained that Mann's building into Brainerd had not given the city the benefit of an opposition line or competing company. It had offered no independent booth or switchboard. They had absolutely failed to comply with the terms of their franchise. He admitted that if the Northwestern wished to roll logs in their way, it would do so at every turn. "The Mann company gave you no independent line," said Mr. Ebner in conclusion, "but connected with a competitor."

Mr. Wilder said Mr. Mann had performed a service to the people of Brainerd and the Mille Lacs lake district by connecting his Midland line with the Northwestern, doing a greater service than if he had put in one phone in Brainerd and waited until now, when he was in a position to put in an exchange.

Mr. Speechley said the Northwestern now had 908 telephones in Brainerd, after seven years in the present field.

Mr. Alderman thanked the Northwestern people for their frank admission regarding the logs they rolled in the way of their competitor.

"If the council thinks the Minnesota Telephone Co. has no right to a franchise, we can litigate this matter with the city," said Mr. Alderman. "Why should the city want to shoulder litigation that can be avoided. This new company offers to operate at a reduced rate and is obliged to do so to get business. Many working people will be able to get a phone which they are not now able to do under

The Family Cough Medicine

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price, 50c and \$1.00. All druggists. H. E. Bucklen & Co., Philadelphia or St. Louis.—Adv't.

IN MUNICIPAL COURT

Man Charged With Drunkenness Forfeits his \$5 Bail—Another Draws Suspended Sentence

In municipal court Mat Hays, charged with drunkenness, failed to put in an appearance and forfeited his \$5 bail.

Hans Sandmark, charged with being drunk, drew \$5 or 5 days and sentence was suspended.

"The Common Law"

Tomorrow evening at the Brainerd opera house "The Common Law" will be seen in this city for the first time. The play which is a dramatization of the novel of that name by Robert W. Chambers, will be presented for an engagement.

The widespread interest in Mr. Chambers' novel and the thousands of requests he has had to put the story in stage form, acted as the impulse in putting out the new play. The production and choice of cast have been made by A. H. Woods and the result is that the new play has created the greatest enthusiasm wherever it has been seen. The love story that usually goes with a comedy drama of this kind is exceptionally well told, with the added interest of being a really different love story. It deals with the love of an artist for his model and her philosophic treatment of the conditions of caste, inasmuch as they are widely separated by birth.

Women Who Get Dizzy

Every woman who is troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so and they have done me a world of good." Just try them, 50c. and \$1 at all druggists or by mail. H. E. Bucklen & Co., Philadelphia or St. Louis.—Adv't.

present Northwestern rates. If you think the 500 or more people who made the contracts with the Minnesota Telephone Co. are not worthy of your consideration, that is a matter for you to determine. It's the first time that I have seen that a city wanted to protect the Northwestern and shoulder all its grievances." He then asked the city attorney for an expression of opinion on the validity of the Mann franchise.

Mr. Haggard stated that he believed that from the showing made Mr. Mann and the Minnesota Telephone Co. had complied with the terms of the franchise.

Mr. Mann said that in the early days his wires had been cut on several occasions when he was connected with Brainerd by way of Alkin.

Mr. Alderman said the Thief River case did not apply to the present situation.

Mr. Ebner said the Mann company had not shown a line with a single independent connection. All they had done was to turn their business over to the Northwestern.

Mr. Alderman read the Mann franchise which stated that Mr. Mann was to pay \$25 to the city when he built his line into Brainerd and \$275 when he built his exchange. Mr. Mann was now in a position to build his exchange.

Mr. Wilder presented to the council the plans of the Minnesota Telephone Co., for the approval of the council.

On motion to accept them the council voted it down, the vote standing two in favor, Aldermen Peterson and Anderson, and five against acceptance, being Aldermen Mahlum, Betzold, Haake, Galle and Lagerquist. Alderman Stallman asked to be excused from voting.

The resolution to nullify the Mann franchise was then presented for adoption and carried, the vote in favor being Aldermen Mahlum, Betzold, Haake, Galle and Lagerquist. Against nullifying were Aldermen Stallman, Peterson and Anderson.

That temporarily disposed of the telephone matter, but leaves the city with the prospect of facing litigation at the hands of the Minnesota Telephone Co. people who may wish to have the courts decide on whether or not their franchise can be so nullified.

B. J. Broady was reappointed assistant city attorney.

Miss O. M. Hansyn was elected assistant city clerk.

The city clerk's report of receipts and disbursements for the month ending September 30th, 1913 was accepted and filed.

The receipts were:

| | |
|-----------------|------------|
| License | \$1,029.00 |
| Mortgage fees | .40 |
| Court fees | 81.71 |
| Court fines | 206.00 |
| Sundry receipts | 148.55 |

Total receipts \$1,465.66

The disbursements were:

| | |

| Library fund | 52.50 |
| Curbing | 1,234.64 |
| Paving | 3,797.42 |

Total disbursements \$8,472.61

The report of Chief of Police S. W. Quinn for September showed 37 arrests, 3 state cases, 28 city cases, 12 cases drunkenness, 1 keeping house

of ill fame, 4 frequenting house of ill fame, 2 disorderly conduct, 1 assault and battery, 1 petit larceny, 2 speeding.

A communication from the water and light board asking the council to authorize the extension of water mains was read. On motion made and seconded by Aldermen Mahlum and Peterson the communication was accepted and placed on file.

The street commissioner's report was accepted and filed. It stated that the work in September included:

Keeps Your Stove "Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish once a week as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE ONE QUALITY

Be sure to get the genuine. Black SPK Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, fenders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush with each can of enamel only.

Use BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

Charles L. Pillsbury's bill for \$150, examination of gas franchises, was referred back to the gas committee.

The city clerk was instructed to notify James M. Elder that the street intersections on North Sixth street had been paved and that the contributions pledged should be turned over to the city.

The transfer of liquor license of R. J. Holden to Wm. Brady was granted.

Resolutions were adopted attesting the contracts entered into by the water and light board with the Slipp-Gruehnagen Co. and L. W. Sherlund.

Two Tungsten lights were ordered in on Rosewood street, one at the culvert and one near the railway.

Mayor Henning's request for an additional patrolman was granted.

P. B. Nettleton asked that the city take steps to explore for iron the lands bequeathed by the late Judge G. W. Holland. The council however, thought it advisable to wait until the title to the lands had been formally passed to the city.

Charles L. Pillsbury's bill for \$150, examination of gas franchises, was referred back to the gas committee.

The city clerk was instructed to notify James M. Elder that the street intersections on North Sixth street had been paved and that the contributions pledged should be turned over to the city.

The transfer of liquor license of R. J. Holden to Wm. Brady was granted.

Resolutions were adopted attesting the contracts entered into by the water and light board with the Slipp-Gruehagen Co. and L. W. Sherlund. Two Tungsten lights were ordered in on Rosewood street, one at the culvert and one near the railway.

Mayor Henning's request for an additional patrolman was granted.

P. B. Nettleton asked that the city take steps to explore for iron lands bequeathed by the late Judge G. W. Holland. The council however, thought it advisable to wait until the title to the lands had been formally passed to the city.

LA FRANCE SHOP

Three women sat in a row in our shop last week, and all bought LA FRANCE. One said, "I can't find anything else that looks so well for so long a time". Another said, "I couldn't be comfortable in anything else". The Third said, "I buy the best looking shoes I can get, and I've worn nothing but LA FRANCE for years." No. 231 is our popular Plaza style, made up in gun metal leather, with mat top.

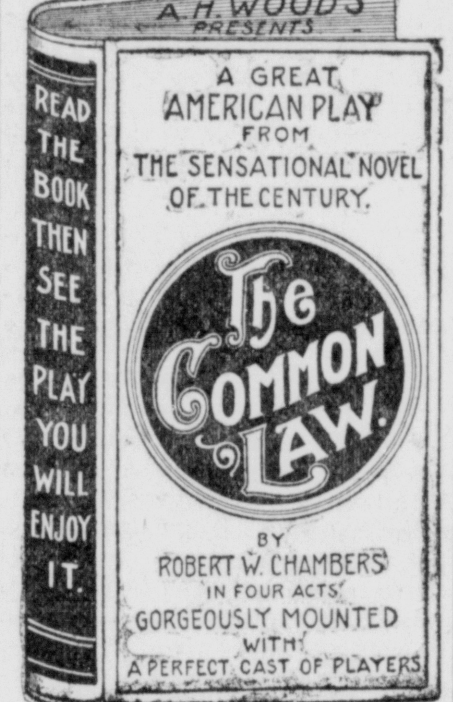

Toothpicks. A single mill in Maine uses 2,000 cords of paper birch each year in the manufacture of toothpicks.

There's Something to a Name —When You Buy Shoes

When a man or woman buys a pair of shoes, they like to know something about the reputation of the maker.

When you buy a shoe with the SELZ trade mark stamped on it, you are getting the best shoe you can buy for the money, because that mark will not be attached to anything but a good shoe, and when it is placed there, a guarantee tag, that leaves no doubt, accompanies the shoe.

We don't believe you can get as strong a reason for buying any other shoe, that's why you ought to buy SELZ Shoes.
